November 2009

Dear Friends and Supporters of Future Minority Leaders:

Since its founding in 2006, Future Minority Leaders (FML) has come to grow as a recognizable organization in the Central Florida Area with a commitment to improving the academic and professional careers of minority college students.

On December 4, 2009 Future Minority Leaders will be hosting its Third Anniversary Networking Event in recognition of the organization's growth and achievements.

This event is geared towards bringing many business professionals as well as students together, building upon the relationships that have been established by our organization, creating new ones, as well as providing a place for everyone to learn about issues concerning the community, share ideas and provide feedback. In 2008 our guest speaker was the Honorable Bill Cowles, Orange County Supervisor of Elections, who spoke to us about how last year's election was shaped by the minority community and the influence minorities will have on future policies. In 2009 we are sure to get a speaker just as inspiring as he was.

We invite you to come join us on this day and request your support as a sponsor. Take part in the coordination process by sponsoring this special occasion as we work to make it a complete success for everyone involved! Sponsoring this event will not only promote your business to a large number of students within different career paths, but also aid us in our efforts to serve the UCF community. We hope that you or your organization will be able to assist with this event as we work to provide students with the necessary tools they need to be successful in the professional world. Attached to this letter you will find details on different ways you could provide us with a tax deductible donation.

Feel free to contact us for more information concerning the event at sponsorships@fmlfl.org.

Thank you for your consideration and we hope to see you there!

Jesenia Vargas

President

ABOUT US

Our Mission

Our purpose is to promote the development of students through educational, professional, and networking OPPORTUNITIES to foster diversity, higher education, and minority development in the community.

In the Fall of 2006, Zoraida Velasco recognized there was a need in the community for college students to get more involved and decided to act upon it by creating a non-for-profit organization. Students were graduating from college and a great majority of them had no idea where or how to take the next step into beginning their professional careers.

Together with Helen Pastrana, these two ladies decided that through this organization they would provide college students and recent graduates with the opportunities and tools they needed to successfully integrate themselves into the working world.

Today, Future Minority Leaders promotes professional development for students by providing internship opportunities and encouraging them to volunteer within the industry of their career field in an effort to create their own professional networks while building awareness of minority issues.
